

Dal 1921 produciamo materie prime e colori per la ceramica industriale, artistica e per l'hobby. L'argilla, l'acqua, il fuoco e il genio dell'artista uniti alla nostra tecnologia rinnovano ancora oggi la bellezza di questa materia antica quanto l'uomo: la ceramica.

*Since 1921 we have been transforming raw materials into ceramic products for the industrial, artistic, and hobby worlds. The clay, the fire, and the ingenious artist united with our technologies revive the beauty of this ancestral material.*
